

FAHEEM ABBAS

Mobile Software Engineer (Flutter) | Dart, Android/Kotlin, Firebase, Clean Architecture

Islamabad, Pakistan | +92 313 5267328 | faheemabbas766@gmail.com

LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Mobile Software Engineer specializing in Flutter/Dart and Android/Kotlin, with experience delivering production mobile features, REST/Firebase integrations, payment flows, and release support. Contributed to official Flutter repositories and worked on invoicing, Android TV, marketplace, and AI-enabled products. Immediately available for onsite, hybrid, remote, and relocation opportunities.

SELECTED IMPACT

- Contributed merged tooling, package maintenance, and documentation changes to official Flutter repositories.
- Delivered mobile features and production support for products with 100K+ and 50K+ public Google Play downloads.
- Improved Android release builds through package analysis, resource and dependency optimization, and release validation.

TECHNICAL SKILLS

Mobile: Flutter, Dart, Android/Kotlin, Jetpack Compose, Material/Cupertino UI, responsive layouts, iOS release workflows

Architecture and state: Clean Architecture, MVVM, MVC, SOLID, BLoC/Cubit, Provider, GetX, dependency injection

APIs and data: REST APIs, JSON, Dio, Firebase Auth, Firestore, FCM, Crashlytics, local storage, Google Maps, Stripe, OpenAI APIs

Quality and delivery: Git/GitHub, GitHub Actions, tag-triggered CI/CD, regression testing, performance optimization, Play Store/App Store releases, Android Studio, Xcode, Postman

PROFESSIONAL EXPERIENCE

Software Engineer | Invotyx Technologies | Islamabad | Jun 2024 - Aug 2026

- Shipped and maintained Flutter features for Invoice Maker, NewsHub, and AI-enabled products, including API-backed UI, Firebase, local storage, notifications, and business logic.
- Structured features with Clean Architecture and MVVM/MVC to separate presentation, business logic, and data layers.
- Delivered SmartIPTV Android TV features using Kotlin and Jetpack Compose, including D-pad navigation, playback, session handling, subscriptions, and release debugging.
- Automated versioned builds with tag-triggered GitHub Actions and supported production releases through regression checks and Crashlytics-led debugging.
- Partnered with backend, QA, and product teams to clarify requirements, resolve integration issues, and prepare mobile releases.

Flutter Developer | Final Solutions | Rawalpindi | Nov 2022 - Oct 2023

- Developed IC App modules covering member services, profiles, online bill payments, food delivery, cinema booking, and facility reservations.
- Integrated REST APIs, notifications, payment-related flows, and state management; handled UI fixes and release preparation.

Independent Mobile App Developer | Freelance | Remote | Jul 2023 - Nov 2024

- Delivered scoped Flutter work for local and referral clients, including UI implementation, REST/Firebase integration, debugging, release support, and handover.

Flutter Intern | Creative IT Park | Jan 2021 - Jun 2021

- Built responsive Flutter screens, basic API integrations, and Git-based feature updates; resolved UI defects and incorporated QA feedback.

SELECTED PROJECTS

Invoice Maker: Easy Bill

Built invoicing workflows for estimates, receipts, discounts, taxes, payment status, templates, validation, and PDF business records.

Stack: Flutter, Dart, Firebase, local storage, PDF

Adara App Hub

Implemented marketplace browsing, OTP authentication, subscriptions, Stripe-backed payment methods, reviews, deep links, APK installation, and child-app launch flows.

Stack: Flutter, GetX, Dio, Stripe, REST APIs

SmartIPTV

Developed Android TV UI, D-pad navigation, playback, session handling, subscription flows, and release fixes for a product with 100K+ Google Play downloads.

Stack: Kotlin, Jetpack Compose, Hilt, Media3/HLS

Orion AI - Android Integration

Implemented Android-side OpenAI request/response flows, chat features, image generation, PDF chat, and transcription; coordinated with separately owned backend and iOS workstreams.

Stack: Android, OpenAI APIs, REST APIs, Firebase

Kiwi - Live Stream & Video Chat

Contributed mobile features, debugging, and production support for a social video product with 50K+ Google Play downloads.

Stack: Flutter, Dart, REST APIs, Firebase

IC App

Delivered billing, food delivery, cinema and facility reservations, feedback, profiles, and notification workflows.

Stack: Flutter, REST APIs, Firebase

Project details and public store links: faheemabbas766.github.io/projects.html

SELECTED OPEN SOURCE CONTRIBUTIONS

- Flutter tooling: multi-digit device selection - merged fix for selecting device options in flutter run.
- video_player_web: compatibility cleanup - merged removal of stale package:web helpers.
- cross_file: native MIME type documentation - merged clarification of native mimeType behavior.

EDUCATION AND CERTIFICATIONS

BS Computer Science | PMAS Arid Agriculture University | Oct 2020 - Oct 2024
CGPA: 3.63/4.00

Google: Google AI Professional Certificate (Jul 2026); AI for App Building (Jul 2026).

Google Play Academy: Store Listing Certificate (Jun 2026 - Jun 2029).

LANGUAGES AND AVAILABILITY

Languages: Urdu (native); English (working communication).

Availability: Immediate joining | Onsite, hybrid, remote, and relocation.
